

WELDWOOD MARKETING

SEMRUSH ACCOUNT MERGE PLAN

INTERNAL MIGRATION CHECKLIST

jake@ into admin@ | Eugene, Oregon

THE PLAN

We are folding jake@weldwoodmarketing.com into admin@weldwoodmarketing.com, then closing jake@. Everything below moves first. Cancelling is the last step, not the first.

5

PROJECTS TO MOVE

1

**LISTING ADD-ON TO
MIGRATE**

0

**TRACKED KEYWORDS AT
RISK**

2

ACCOUNTS TO RECONCILE

IF YOU ONLY DO ONE THING

Do not close jake@ until Listing Management is live again under admin@. Cancelling the account drops the local listing, the directory syncs, and the review history for weldwoodmarketing.com. That is the one thing that does not come back with a rebuild.

WHAT WE FOUND

A scan of the connected account, jake@ (Semrush user 12305610). It owns five Projects and has one more shared into it from admin@.

PROJECT	DOMAIN	TOOLS ON	OWNER
Tocher Construction	tocherconstruction.com	Site Audit	jake@
Escape Artist Greenville	escapeartistgreenville.com	Site Audit	jake@
Fairchild Botanical	fairchildgarden.org	Site Audit	jake@
Weldwood Marketing	weldwoodmarketing.com	Site Audit	jake@
The Great Escape Room	thegreatescaperoom.com	Site Audit, Position Tracking (empty)	jake@
The Escape Ventures	theescapeventures.com	None	admin@ (shared in)

Scanned via the Semrush connector on August 19, 2026. The Projects API reports Site Audit and Position Tracking only. It cannot see Listing Management, saved reports, keyword lists, or integrations, so those are checked by hand below.

ADMIN@ IS ALREADY IN THE PICTURE

admin@ is Semrush user 22533995. It owns The Escape Ventures and already shares it into jake@. That is your destination account, and it keeps that project no matter what happens to jake@.

WHAT MUST MOVE

Ranked by what hurts most if it gets missed.

CRITICAL 01 | PAID ADD-ON | LIVE LISTINGS AND REVIEWS

LISTING MANAGEMENT FOR WELDWOODMARKETING.COM

This is a paid subscription tied to the jake@ account and the specific business location. It carries your name, address, and phone across directories, plus review management. The API cannot read it and a project transfer will not carry it.

Fix

Call Semrush support and ask them to migrate the add-on to admin@. If they cannot, resubscribe under admin@ and re-enter the business info, then confirm the listings are live before you touch jake@.

WARNING 02 | PROJECTS | 5 SITES

FIVE SITE AUDIT PROJECTS

Tocher Construction, Escape Artist Greenville, Fairchild Botanical, Weldwood Marketing, and The Great Escape Room. All owned by jake@. They vanish when the account closes.

Fix

In jake@, open each Project and transfer ownership to admin@. If transfer is not offered, recreate them under admin@. Site Audit settings take a few minutes each to rebuild.

CHECK 03 | INVISIBLE TO THE API | VERIFY BY HAND

REPORTS, KEYWORD LISTS, AND INTEGRATIONS

The scan cannot see these, so open jake@ and check each one: My Reports templates and scheduled PDF sends, Keyword Manager lists, and connected Google Analytics, Search Console, and Google Business Profile accounts.

Fix

Export or screenshot each report template, note the keyword lists, then rebuild and reconnect them under admin@.

PASSING 04 | POSITION TRACKING | THEGREATESCAPEROOM.COM

THE POSITION TRACKING CAMPAIGN IS EMPTY

The tracking tool is switched on for The Great Escape Room but has no keywords loaded. There is nothing to lose here and nothing to move.

WARNING 05 | BILLING | DOES NOT TRANSFER

LEFTOVER API UNITS IN JAKE@

API units are tied to the account and do not move with a merge. Anything left in jake@ is gone at cancellation.

Fix

Spend them before closing, or accept the write off. Do not buy more units on jake@.

ORDER OF OPERATIONS

Top to bottom. Do not skip to the end.

- 1 Move the five Projects.** Transfer ownership to admin@ from inside jake@, or recreate them under admin@.
- 2 Handle Listing Management.** Call Semrush support first. Migrate the add-on if they allow it, otherwise resubscribe under admin@ and confirm the listings are live.
- 3 Rebuild the invisible stuff.** Recreate report templates and keyword lists, and reconnect Google Analytics, Search Console, and Google Business Profile under admin@.
- 4 Reconnect Claude.** Point the Semrush connector at admin@ in claude.ai Settings, Connectors.
- 5 Cancel jake@.** Only after every step above is confirmed done.

THE TRAP

Semrush has no merge button. Cancelling jake@ first does not push anything to admin@, it just deletes it. Move everything, confirm it landed, then close the account.

BEFORE YOU CANCEL

Every row here should read Yes before jake@ closes.

CHECK	CONFIRMED
All five Projects appear under admin@	No
Listing Management live under admin@, listings and reviews syncing	No
Google Analytics, Search Console, and Business Profile reconnected under admin@	No
Report templates and scheduled sends rebuilt under admin@	No
Leftover jake@ API units spent or written off	No
Claude Semrush connector reconnected to admin@	No
Final export or screenshots of jake@ saved for records	No

MESSAGE TO SEMRUSH SUPPORT

Copy this, send it, and wait for their answer before you move the Listing Management piece.

SUBJECT: CONSOLIDATING TWO ACCOUNTS AND MOVING LISTING MANAGEMENT

Hi Semrush team,

We run two Semrush accounts at Weldwood Marketing: admin@weldwoodmarketing.com and jake@weldwoodmarketing.com. We want to consolidate into admin@ and close jake@.

Two questions:

1. Can you transfer the Projects owned by jake@ to admin@, or should we recreate them? The Projects are Site Audit setups for tocherconstruction.com, escapeartistgreenville.com, fairchildgarden.org, weldwoodmarketing.com, and thegreatestescaperoom.com.
2. jake@ has a paid Listing Management subscription for weldwoodmarketing.com. Can this add-on be migrated to admin@ without losing the business listing, the directory syncs, and the review history? If it cannot be migrated, what is the correct order so the live listings do not go dark?

We will not cancel jake@ until this is sorted. Thanks for the help.

Send from admin@weldwoodmarketing.com so support can see both accounts on the same domain.
